DIVING NAVY

Ulysse Nardin launches a new diver chronograph that marks a pioneering feat for the Swiss watch manufacturer. Introducing the *Diver Chronograph Hammerhead Shark*, it houses a new self-winding movement with a silicium escapement and balance spring. In complementary colours of red, white, gold, and navy blue, an engraved image of a hammerhead shark sits just below the lugs followed by a rubber strap bracelet. www.ulysses-nardin.com

CLOSE TO HOME

With a brand history that was rooted since the 1970s, Singapore-based jewellery brand Foundation Jewellers pays homage to their Peranakan heritage in its creations. In this standout piece, the *Butterfly Motif* pendant/brooch is a beholder of a 1.19ct round and 2.33ct marquise tanzanite. Complemented with rubies and white diamonds, the bold blue body makes for a statement piece in this exceptional 18k yellow gold setting. www.foundationjewellers.com

SUBTLE SPARK

Wearing red in your jewellery doesn't necessarily need to be the brightest hue. Tone it down with Fope's 18k rose gold necklet with a chain necklace that weaves each gold link close to create a perfect circle. A single dark red garnet pendant hangs from the centre for that minimalistic finish. www.fope.com

Hearts Aflutter

Palmiero Gioielli paints a pretty picture with an overload of diamonds and precious gems. Dazzling in various shades of purple, sapphires, tourmalines, and amethysts form the decorated wings of a butterfly, entitled the *Winged Flowers* ring set in 18k white gold and diamonds. www.palmierogioielli.com

Refreshed and reinvented, the charm now makes its presence coiled around the new *Serpentini Jewellery* timepieces. Available in combinations of mother-of-pearl, coral, onyx, and turquoise, the gold watch cuffs are adorned in white diamonds from head to tail. www.bulgari.com

SHINY & CHIC

Presented at BaselWorld, the Porto Cervo collection by Antonini is a colourful array of jewels inspired by the colours of the Mediterranean. Aside from the shades of purples, blues, and reds, the gemstones are cut in various faceted angles to shine from all sides. From briolettes to single cabochon settings, the asymmetrical arrangements create a modern contemporary look. www.antonini.it

BEAUTY & BEYOND

Inspired by the imagery of flitting dragonflies in bright holographic colours, German-based jewellers Etcetera replicate a jewelled version of the insect. Spanning from the centre, a step-cut spinel body radiates into smaller round-cut spinels on colourless jadeite wings. Two brilliant-cut diamonds make up its eyes, followed by a shower of smaller white diamonds across a length of 6.3cm. www.bonhams.com
